

Energy Guideline

Chanakya University owes the responsibility to ensure that every effort is made to conserve energy and natural resources while preserving an appropriate learning environment. The board also recognizes the implementation and continued support of this guideline is the joint responsibility of the board members, administrators, teachers, students and support personnel and its success is based on cooperation at all levels.

The Board Members, staff, and Students are committed to ensure that the statements below are adhered to:

1. Ensure this guideline is widely communicated and updated as and when required, or at least annually.
2. Create an Energy Management Team to ensure that the actions decided upon are implemented
3. Set energy performance improvement objectives and targets.
4. Regularly monitor and evaluate energy use in order to establish a baseline and enable easy identification of anomalies.
5. Create an Action Plan and ensure that all stakeholders of the University understand it and are aware of the actions, including their individual responsibilities.
6. Ensure the availability of necessary information and resources to achieve the objectives and energy targets
7. Commit to consider Energy Performance Improvement, Infrastructure & Practices in design activities for New Building Infrastructure Development
8. Satisfy applicable legal and other requirements related to energy efficiency, energy use, and energy consumption
9. Procure energy-efficient equipment and services to improve energy performance.
10. Continually improve energy performance and Energy Management System.
